D.O. No.S&C/QP/06/9-13/Stg.VII/Pt.1539/556  
Dated: 20.04.2017

It is to inform that target for procurement of wheat during RMS 2017-18 has been fixed at 330 LMT. At present the procurement is in full swing in Punjab and Haryana and huge procurement of wheat is expected. As such, enhanced movement of foodgrains from procuring regions (including direct dispatch from mandis) to the consuming regions is being planned/ undertaken to decongest mandis and ease out the space crunch in procuring areas and minimize storage in CAP.

In view of above, you are requested to ensure maximum utilization of existing capacities and also hire additional capacities from CWC/SWC/State agencies/ private parties on short term basis, as per requirement and within your DOP, to accommodate additional stock from Punjab and Haryana. The capacities so hired to be gainfully utilized and the utilization should be regularly monitored at your level.

Action taken report in this regard to be submitted within 10 days.

Yours sincerely,

(Yogendra Tripathi)

General Manager (Region),
