Please follow the below step(s) to configure the biometric device for the enrollment.

Step-1

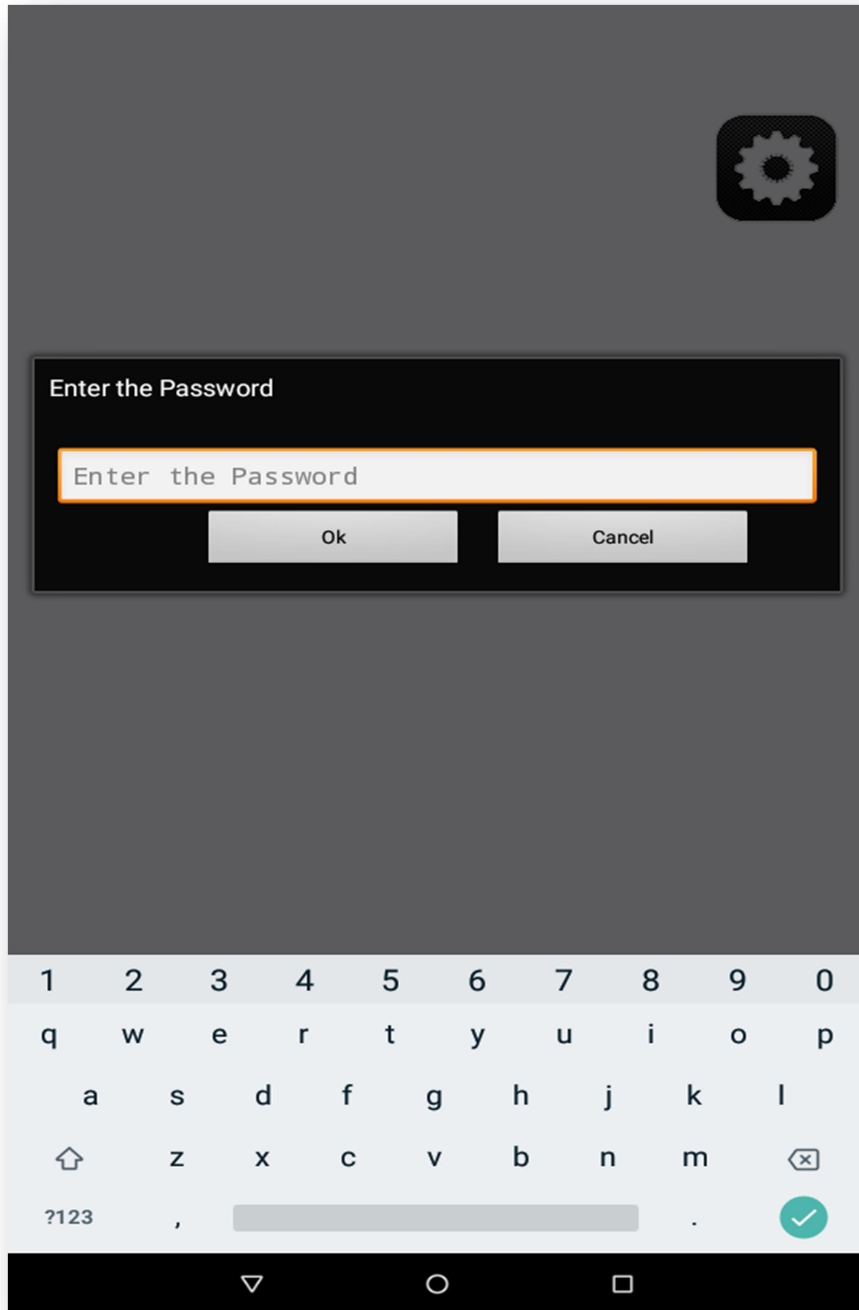

Open the device lock and switch on the device. Hold the power button for few seconds.

Click on the setting icon as shown below.

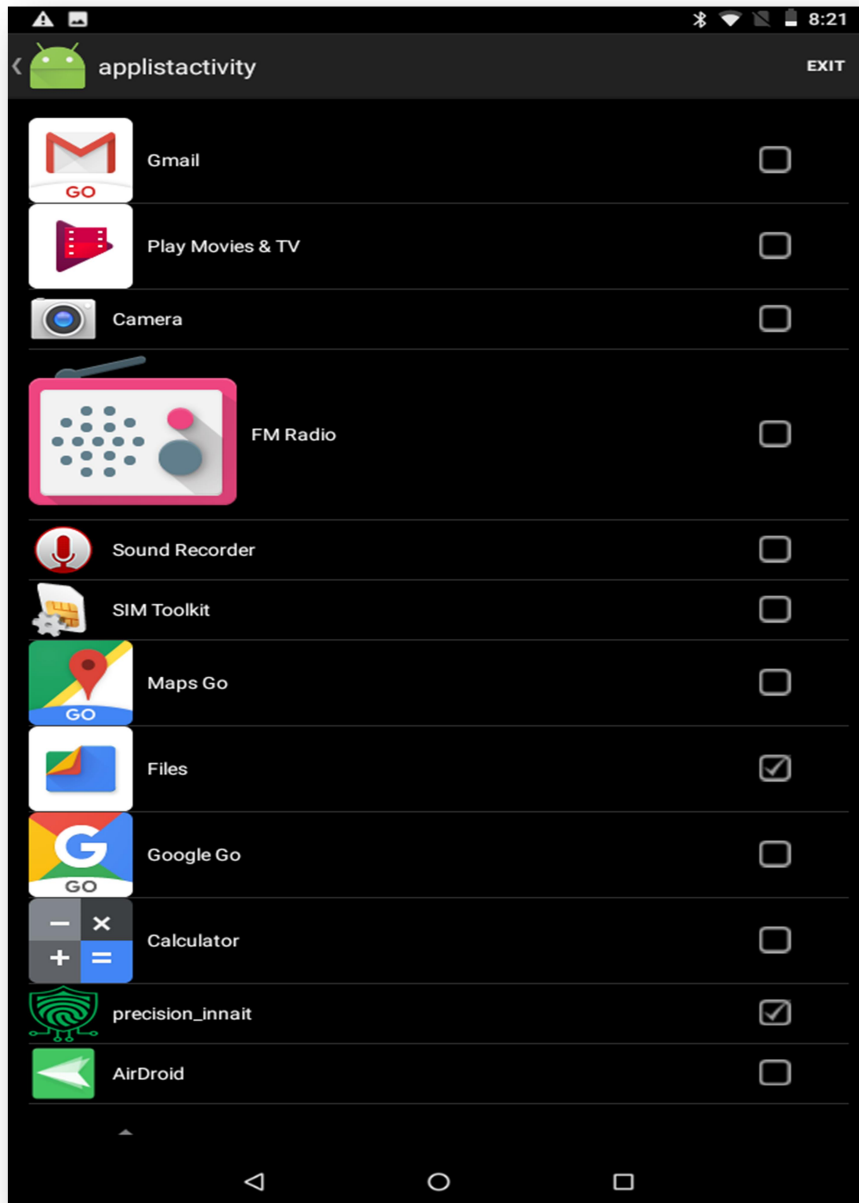

Enter the password as shown in below screen and password is “**Password@123**”

**Step-2**

When you enter the password and click on the **OK** button then Apps will be appeared. Now select the apps that you want to use like Files, Settings etc, as shown below.

Then click on the home or back icon/button.

Step-3

Download the latest APK to configure the device from below path

<https://drive.google.com/drive/folders/1SXsXdiHWeHp2YFhQhjOMfY7rF7CjwYms>

InnalT Kellton Client.apk

Device Registration.apk

Device Driver.apk

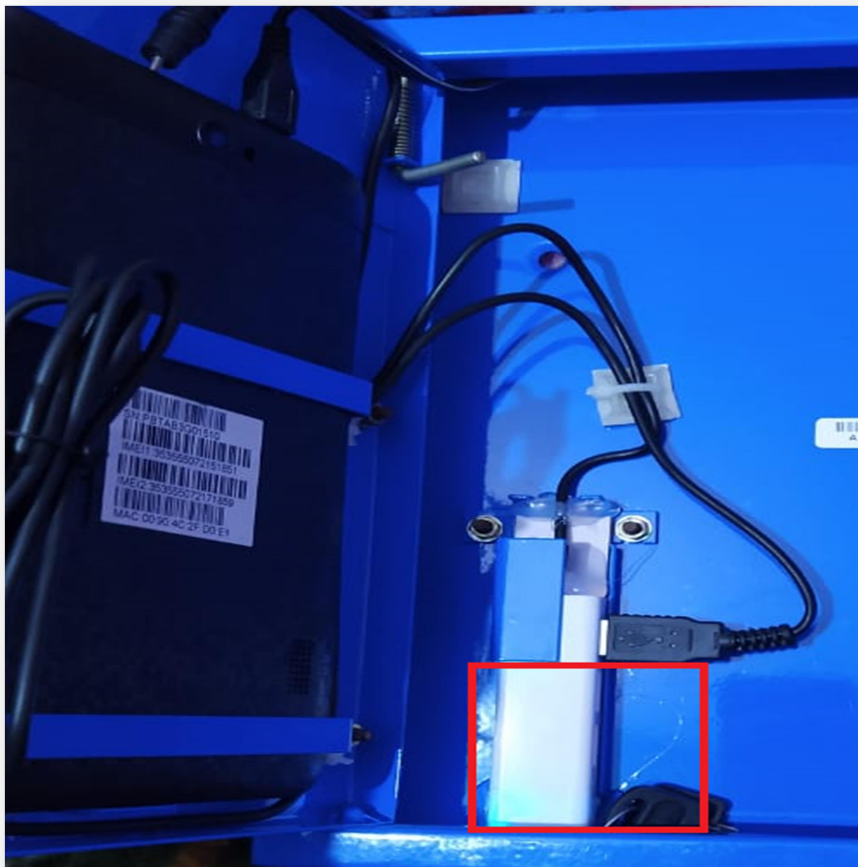

Attendance App.apk

Public.key

Either APK can be downloaded from the computer and can transfer in the machine through Pendrive. Copy those file in download folder of the device.

To copy file(s) follow the below steps

If want to copy APK from Pendrive. Need to open the device lock and use the USB ports given in LAN connector port, as shown below.

Now install all the 3 apk

1. PB510 innait driver apk
2. InnalT Kellton Attendance apk
3. InnalT Kellton Client apk

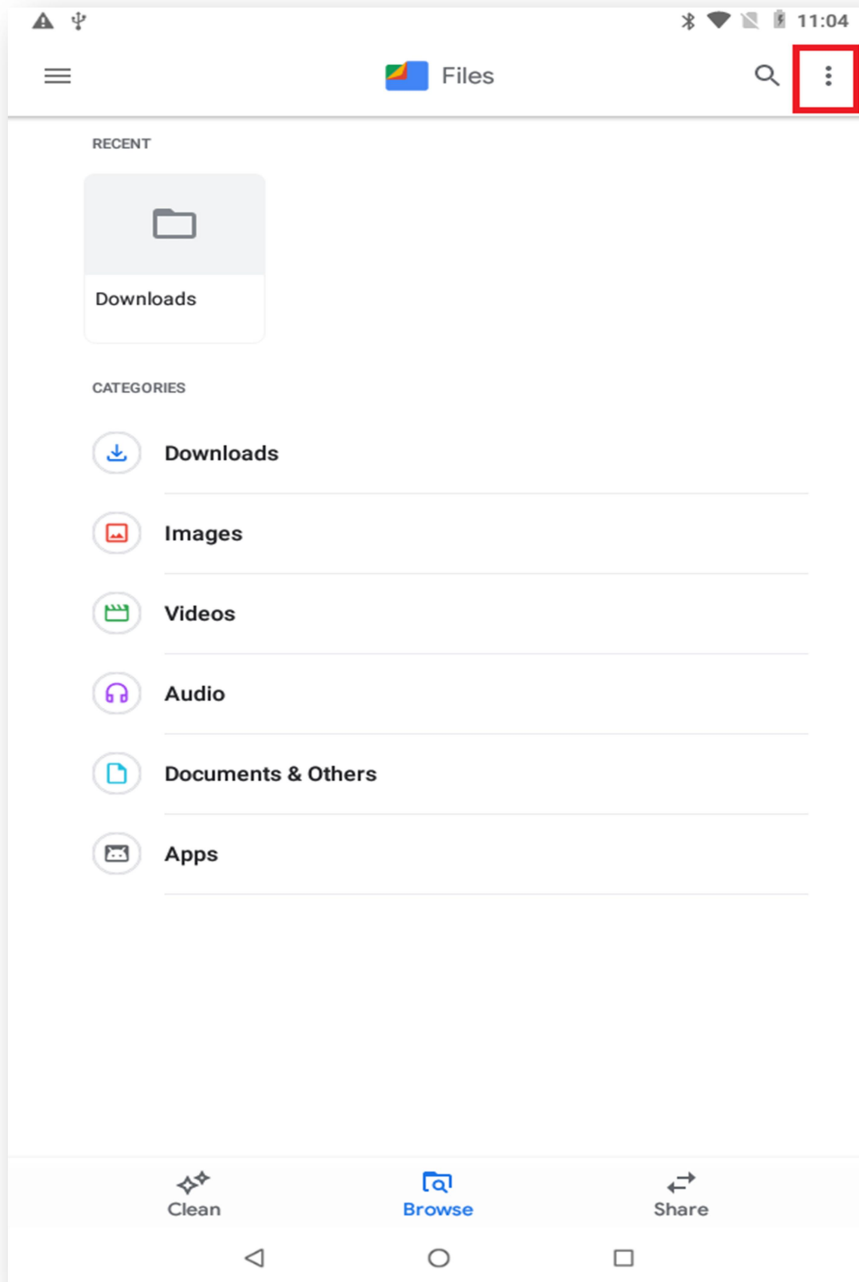

After installing all three apk, these are all three apps

**Step-4****Copy public.key to data folder**

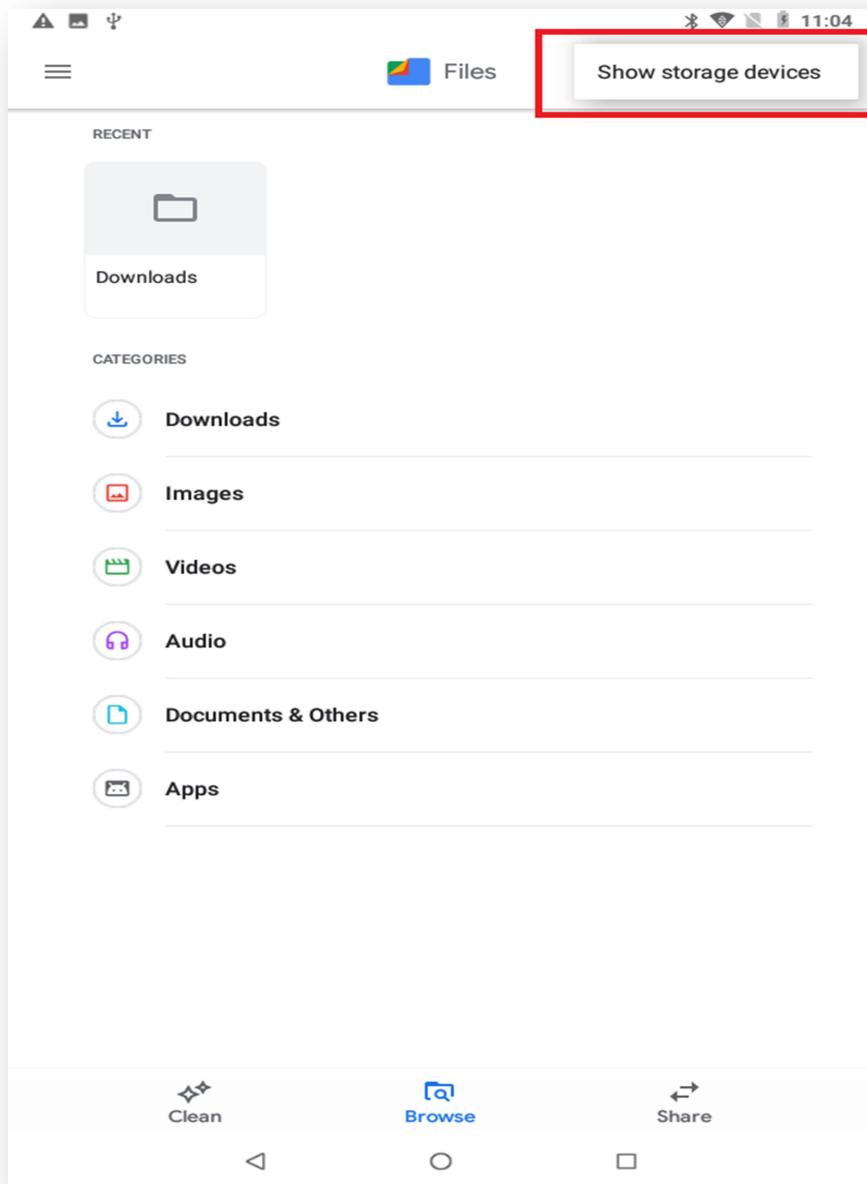

To copy public.key to data folder follow the below steps.

Open Files folder in biometric device and click on the 3 dots as shown below.

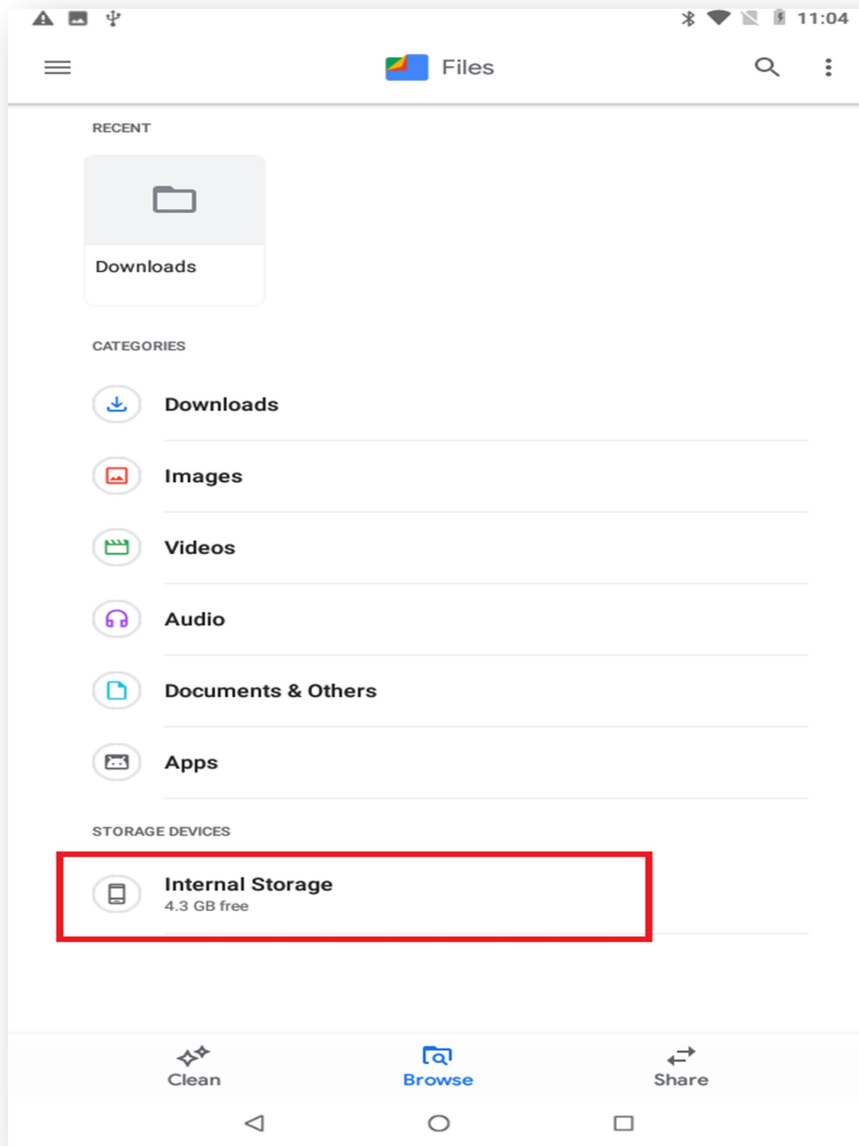

When click on the 3 dots then show storage device option appears. Click on the Show Storage Device as shown below.

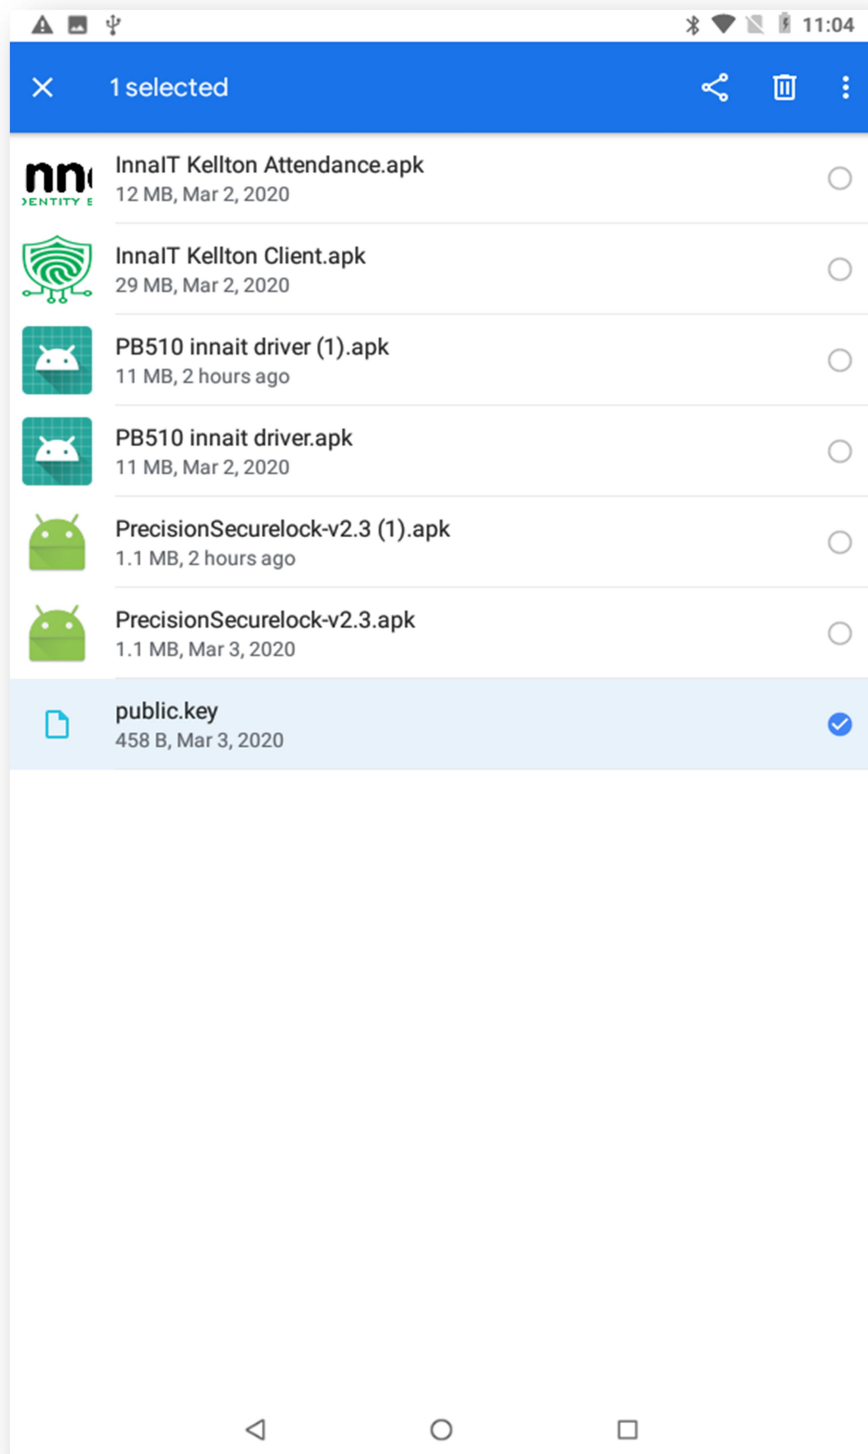

When click on the **Show Storage Devices** option then **Internal Storage** will be appeared as shown below.

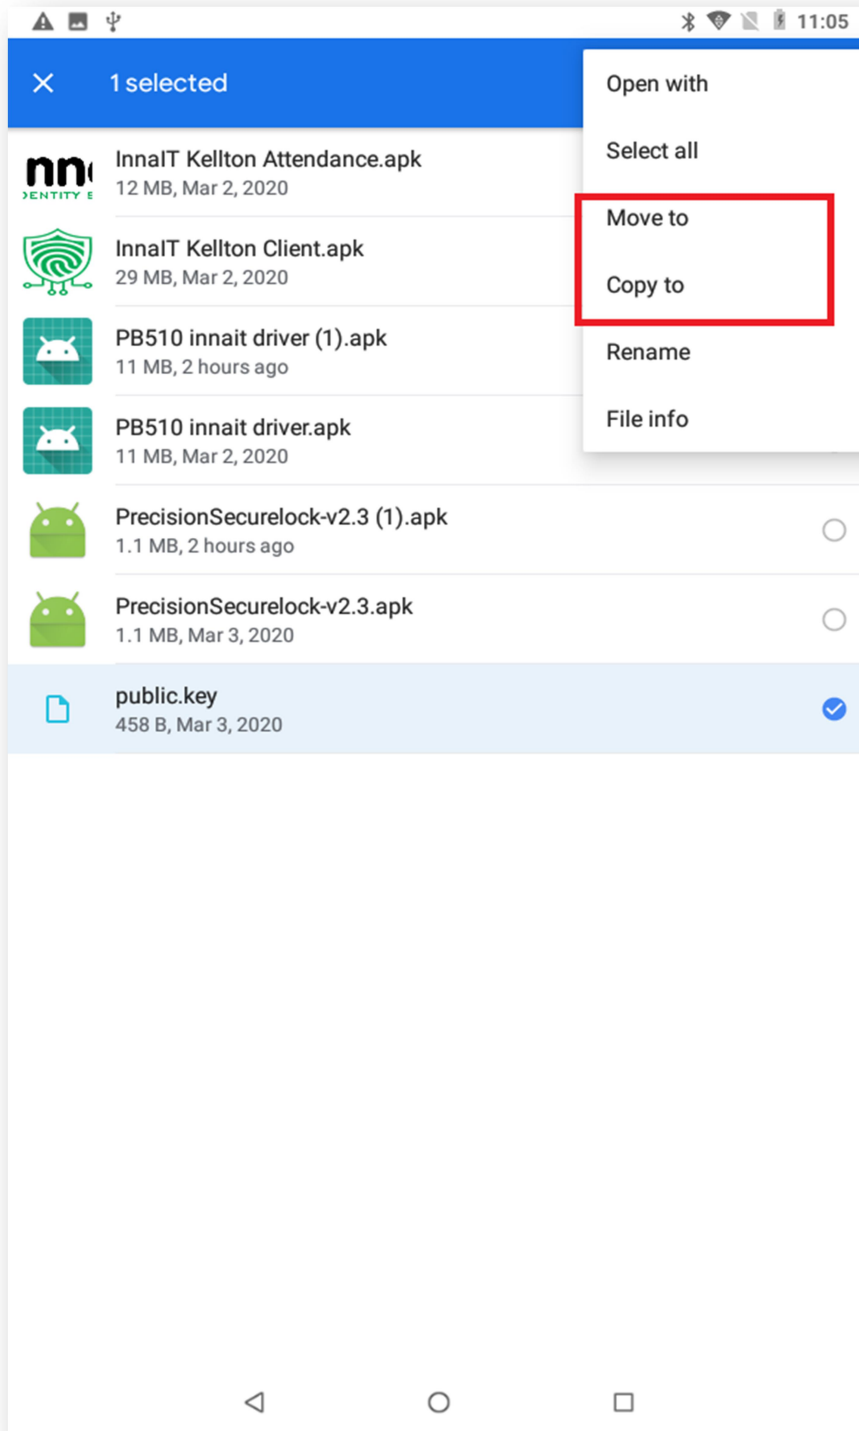

Now click on **Internal Storage** >>**Download** and select the **public.key** as shown below.

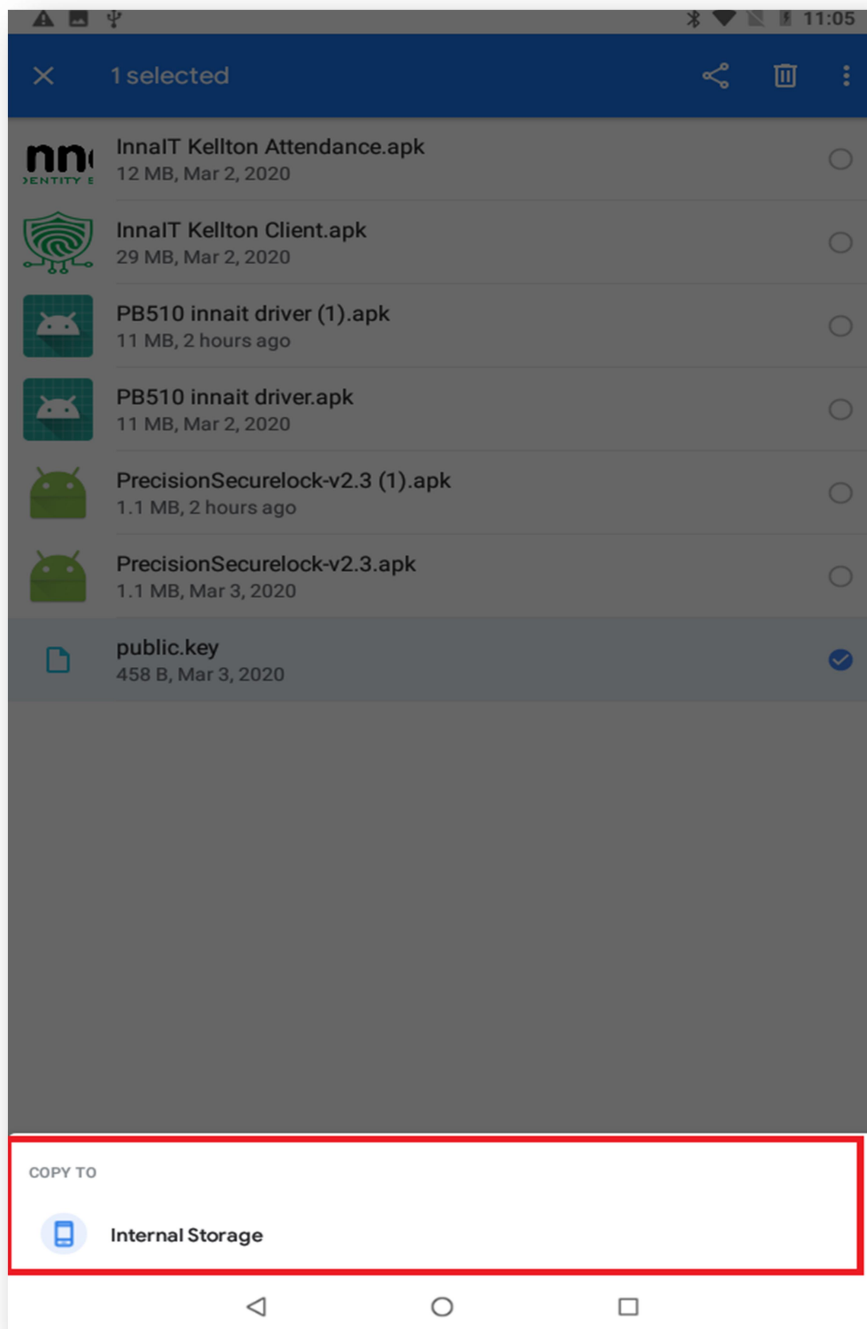

After selecting the file click on the given 3 dots on the top right then options will be appeared as shown below.

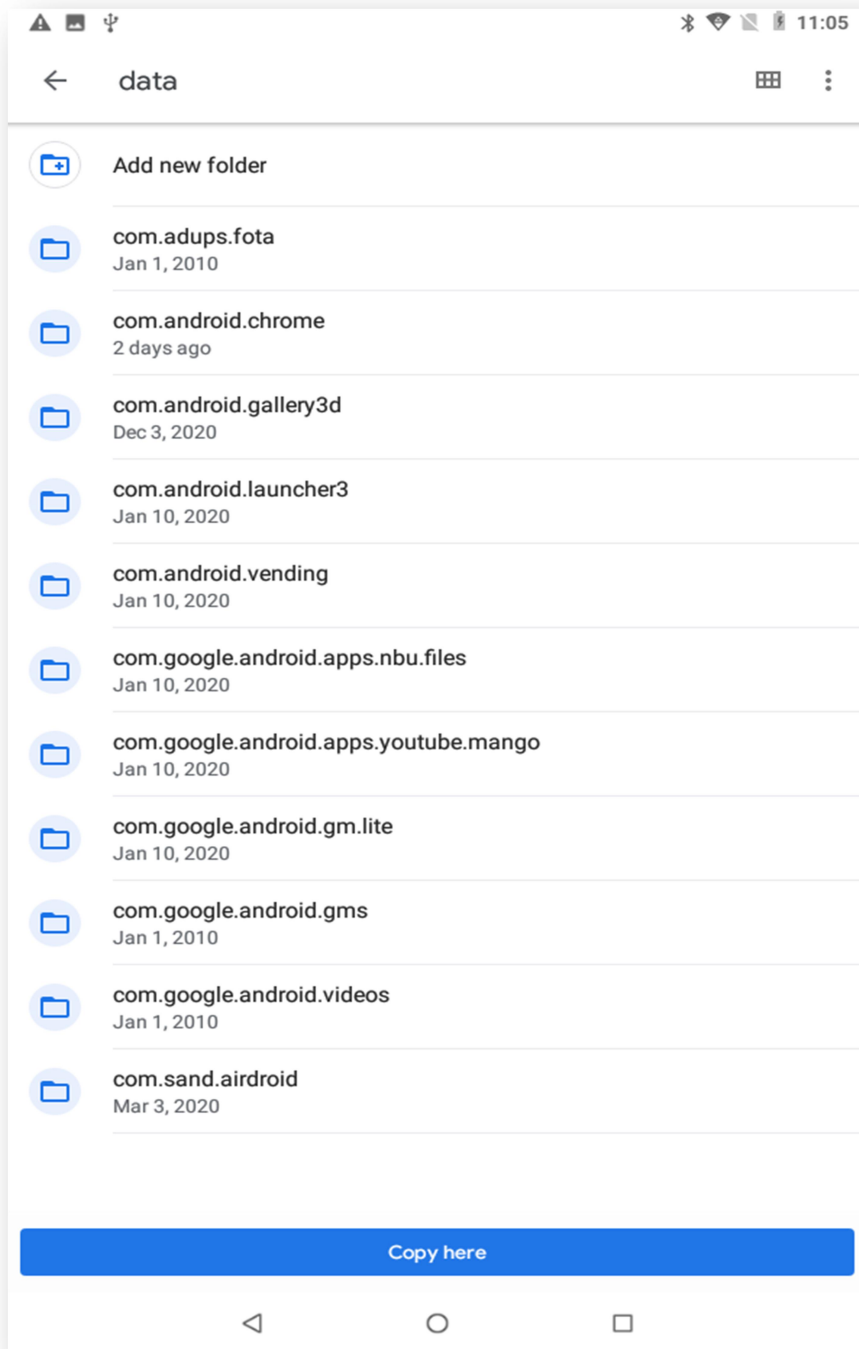

Select the Copy to option then Internal Storage will be appeared as shown below.

And select the path **Internal Storage >> Android >> Data**, and click on the Copy here button/icon as shown below.

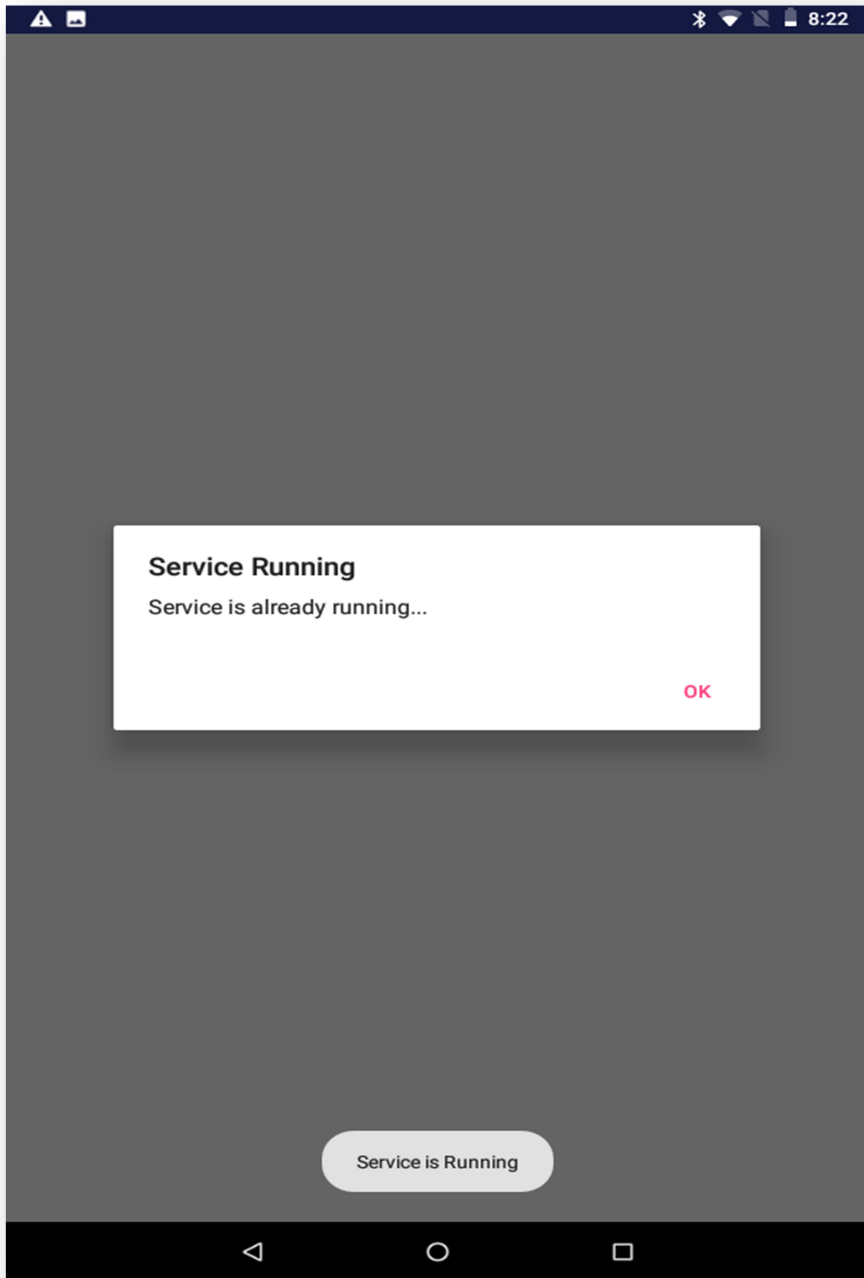

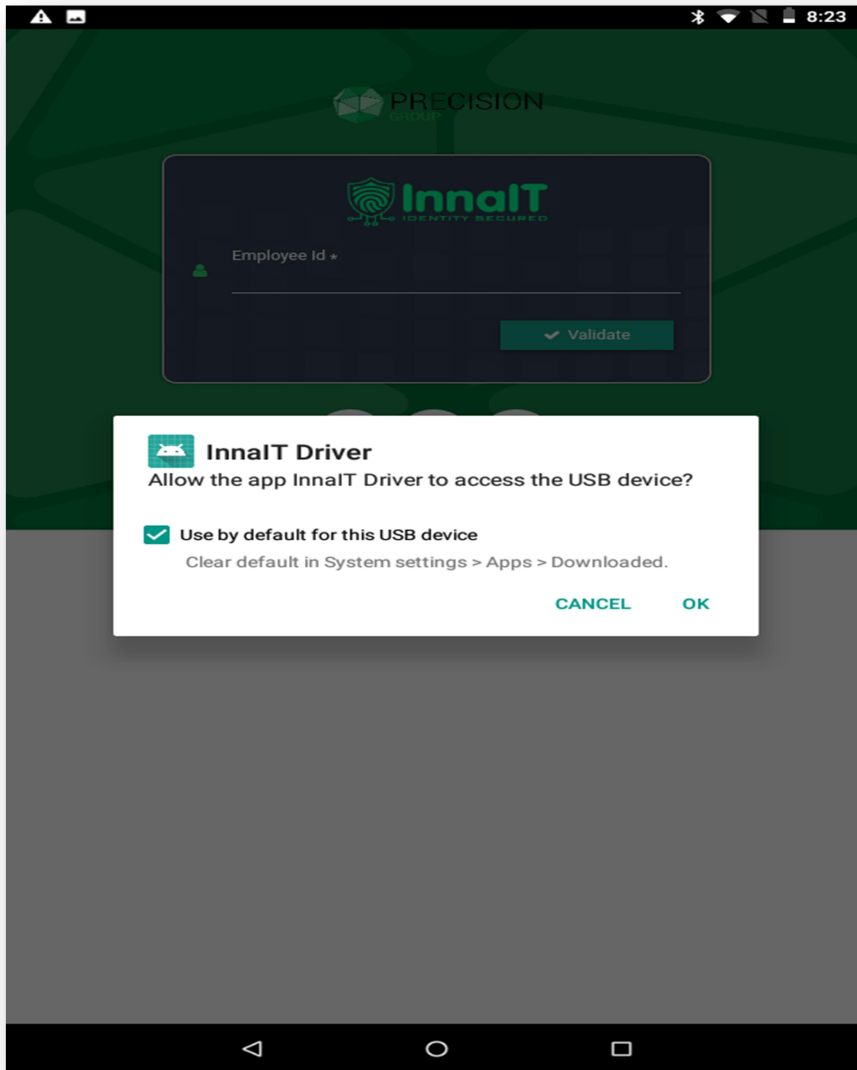

Step-5

Now Restart the device.

Click on the InnalT Driver icon and wait until it is closed by itself, do not click on OK, as shown below.

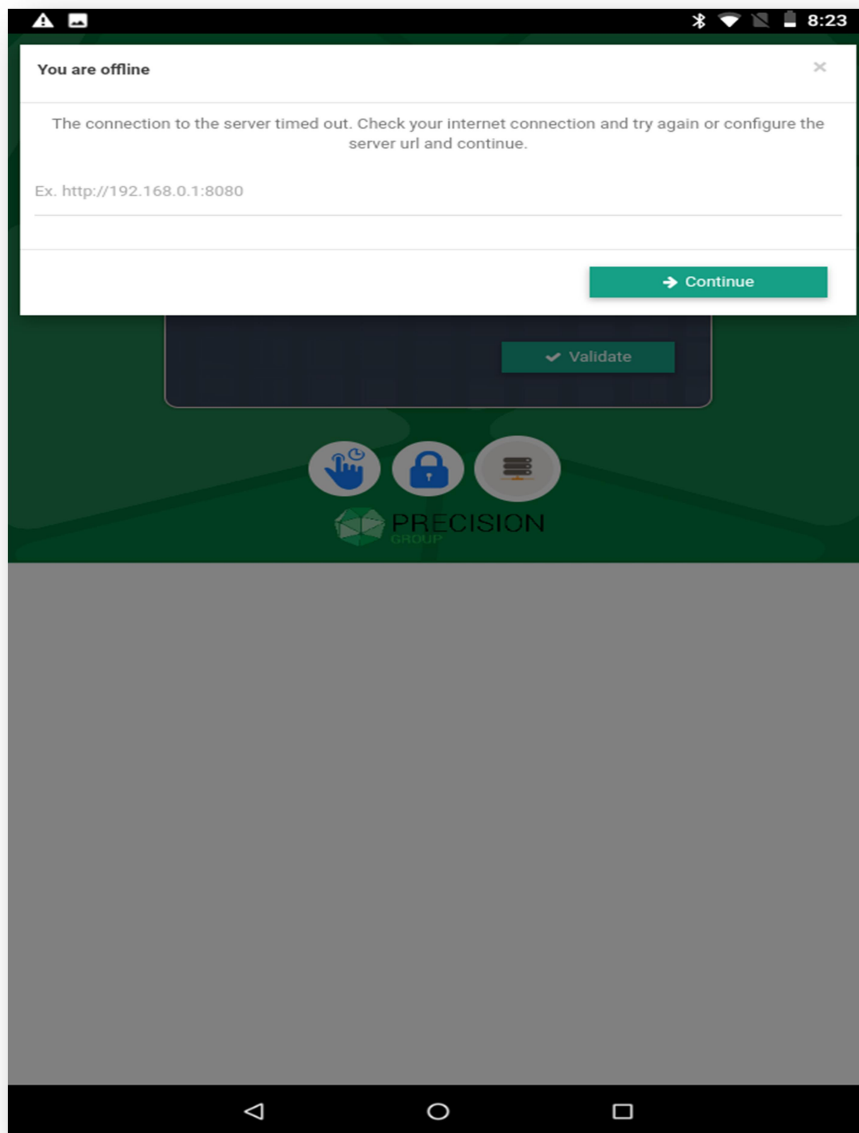

Click on precisin_innait then app will be opened as shown below. Have to check the checkbox (Use by default for this USB device) and click on OK

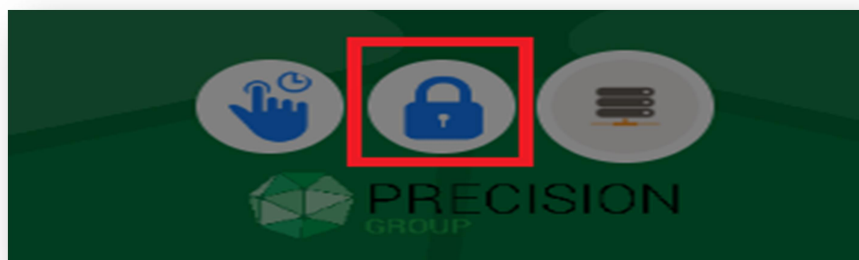

Then click on hamburger Icon shown as below

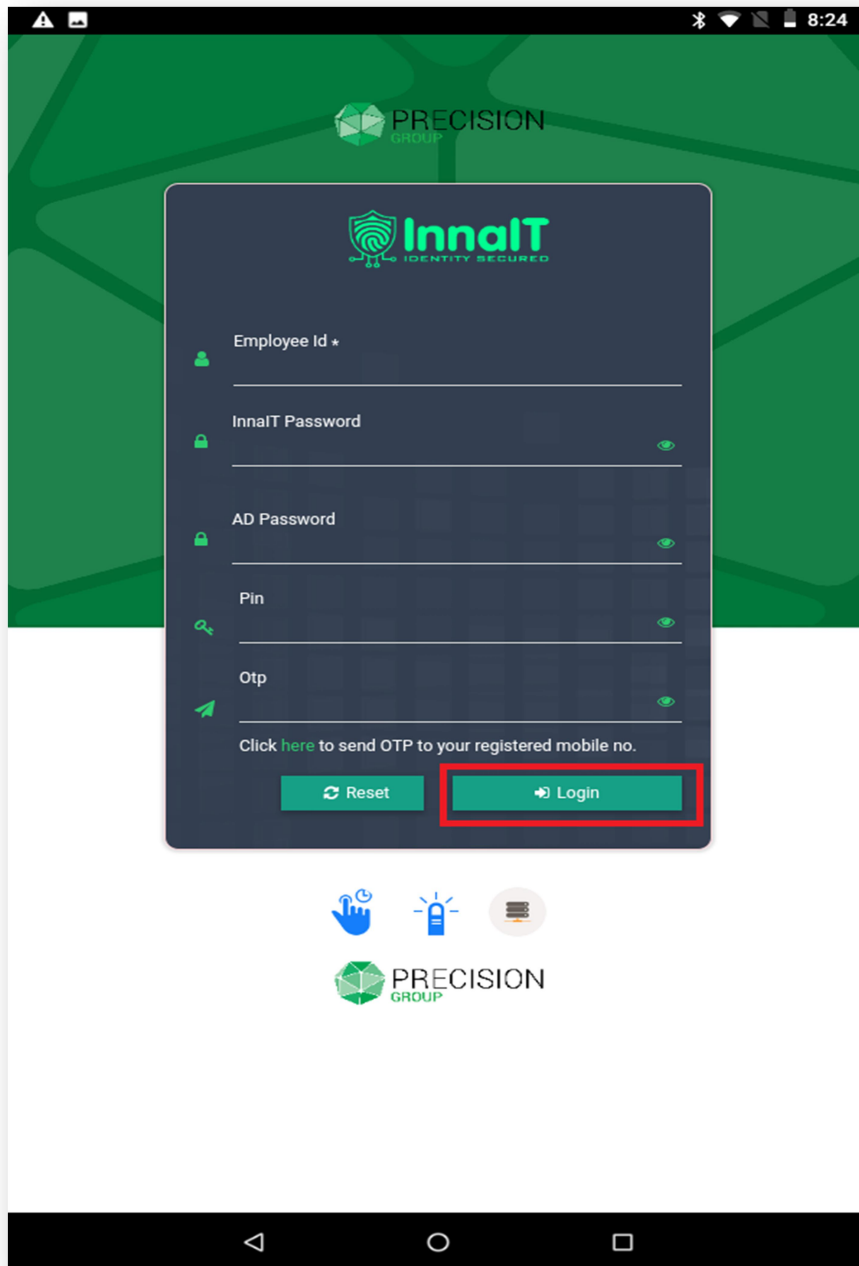

Now enter the url <http://biomas.hrmsfci.in> and click on Continue

Now click on the middle lock icon as shown below.

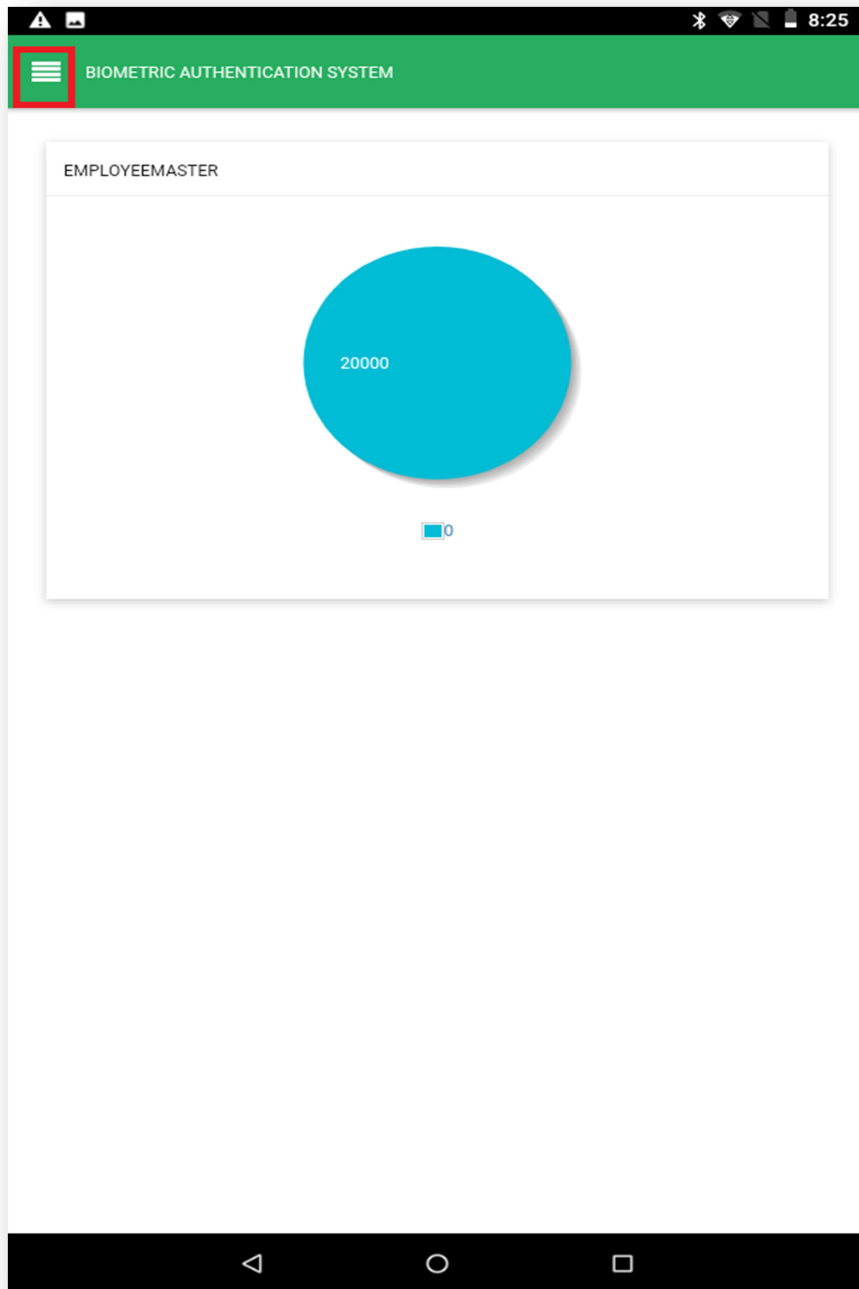

Then need to enter the Employee Id= “**superadmin**” and InnalT Password= “**superadmin**” and click on login button/icon as shown below.

The screenshot displays the InnalT login interface on a mobile device. The background is a green abstract pattern with the 'PRECISION GROUP' logo at the top. The login form is a dark blue overlay with the 'InnalT' logo and 'IDENTITY SECURED' tagline. It contains five input fields: 'Employee Id *', 'InnalT Password', 'AD Password', 'Pin', and 'Otp'. Each field has a corresponding icon (person, lock, key, and arrow) and a visibility toggle (eye icon). Below the fields is a link: 'Click [here](#) to send OTP to your registered mobile no.' At the bottom of the form are two buttons: 'Reset' and 'Login'. The 'Login' button is highlighted with a red rectangular box. Below the form are three icons: a hand, a lightbulb, and a server rack, followed by the 'PRECISION GROUP' logo. The bottom of the screen shows the Android navigation bar.

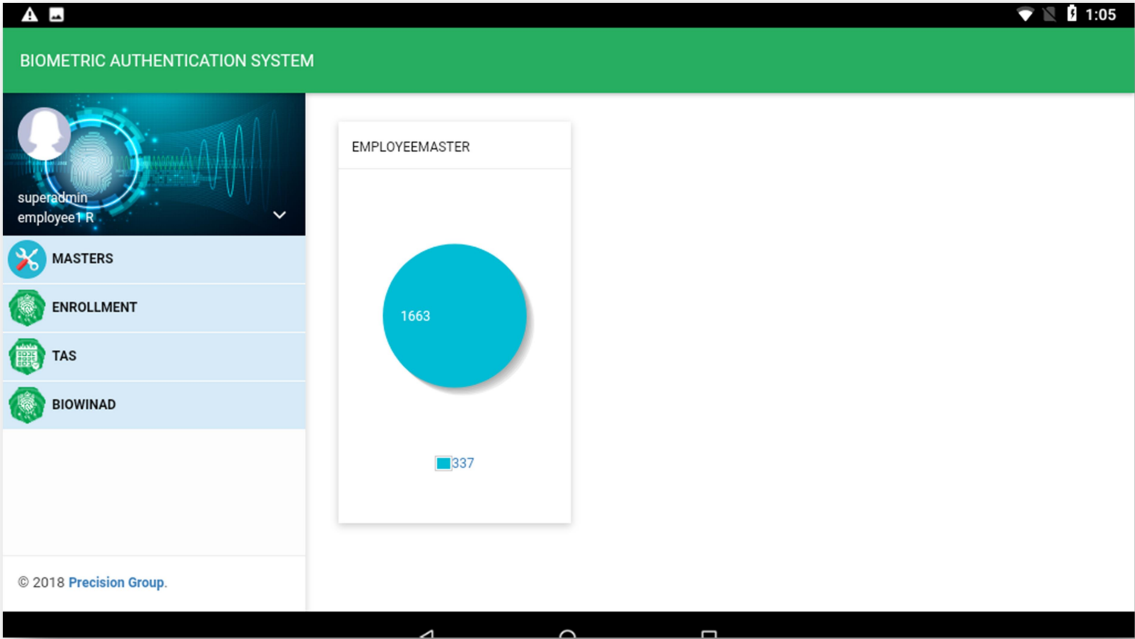

When you click on Login button/ icon then it will be open as shown below and have to click on the menu option as shown below.

When click on the menu option shown in the above. Biomas menus will be appeared as shown below.

Step-6**Device Registration**

To register the device please click on **TAS >> Device List** then option will be opened.

Now need to click on the icon and fill then details.

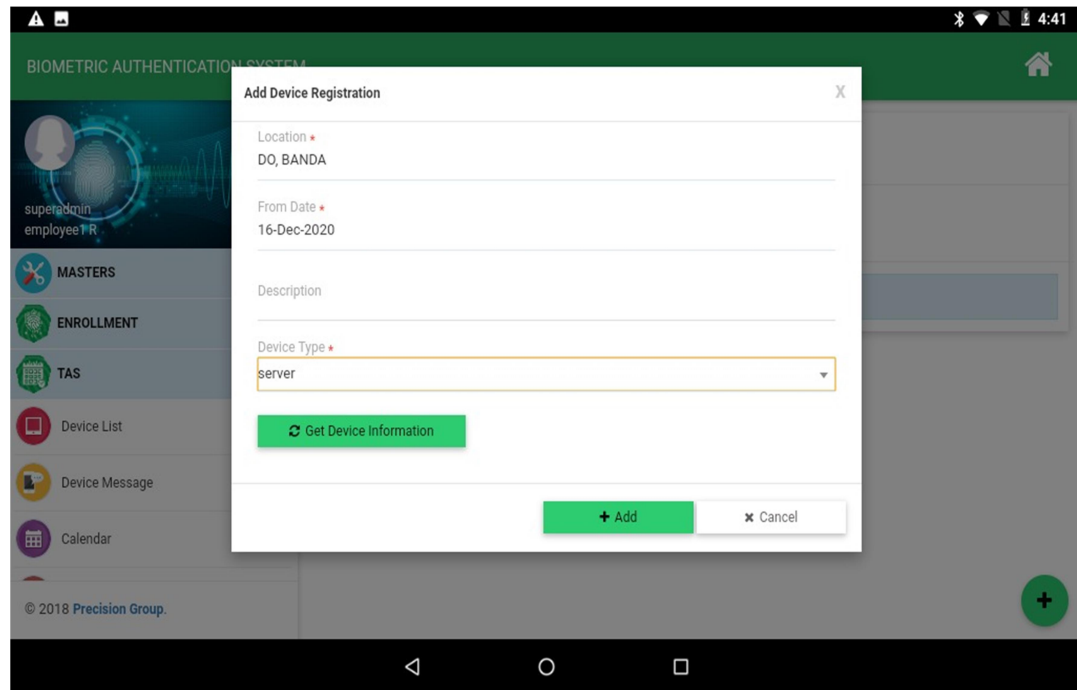

Enter Location Name (Case Sensitive)

Enter From Date.
